

Saturn Studio – Credencial Deep Seek

Para obtener las **credenciales de Deep Seek** en Saturn Studio, sigue estos pasos:

1. Acceso al módulo Deep Seek

Dirígete al **módulo Deep Seek** en Saturn Studio y haz clic en **New** para crear una nueva credencial.

A screenshot of the 'List Models' dialog box in Saturn Studio. The dialog has a dark red header with a globe icon, the text 'List Models', and buttons for '{ x }', 'Test Command', 'Docs', and a close button. Below the header, there is a section for 'Add a description' with a pencil icon and a question mark, followed by the text 'List all models available in DeepSeek'. The 'Credential' section has a dropdown menu, an 'Edit' button, and a 'New' button. Below this is the instruction 'Select the DeepSeek credential you want to use'. The 'Assign result to variable' section has a dropdown menu with 'Select one' and a downward arrow. At the bottom right, there are 'Cancel' and 'Ok' buttons.

4. Registrarse en Deep Seek

Regístrate en la página oficial de **Deep Seek** si aún no tienes una cuenta.

5. Crear la API Key

Una vez registrado, **Deep Seek** te permitirá crear nuevas **API Keys**. Haz clic en el botón **Create API Key**.

API keys

Your API keys are listed below. The API key is only visible and can be copied once at creation. Save it securely. Do not share your API key with others, or expose it in the browser or other client-side code. In order to protect the security of your account, DeepSeek may also automatically disable any API key that we've found has leaked publicly. Usage of API keys created before April 25, 2024, was not tracked.

Name	Key	Created	Last used
No API key, you can Create new API key .
