

Notificación

Genera una notificación de sistema.

Se le puede pasar una imagen para que la muestre como ícono.

The screenshot shows a configuration window for a system notification. At the top, there is a header with a speech bubble icon and the word "Notificación". To the right of the header are four platform icons: Linux (Tux penguin), macOS (Apple logo), Windows (Windows logo), and Android (Android robot). Below the header is a light blue bar with a question mark icon and the text "Genera una notificación de sistema". Underneath this bar, there are three main sections: "Icono del mensaje PNG o JPG" with a text input field containing "C:/Users/User/Downloads/startup.png" and a "Buscar" button; "Título del mensaje" with a text input field containing "Notificación"; and "Mensaje" with a text input field containing "Esto es una prueba!!". At the bottom right of the window, there are two buttons: "Agregar Comando" (blue) and "Cancelar" (grey).
